

# AZURE MINERALS LTD

*Australia's Leading Explorer in Mexico*

ASX: AZS

12 March 2014

## UPDATED CASCADA 3D MODEL AVAILABLE FOR VIEWING ONLINE

Azure Minerals Limited (ASX: **AZS**) ("Azure" or "the Company") is pleased to advise that the Corebox three dimensional (3D) visual representation of drill holes and mineralised intercepts at the Cascada prospect area has been updated and can be viewed on the Company's website.

This online tool allows viewers to visualise where mineralised drill intercepts are located in 3D relative to other Azure drilling in order to understand their relationships and significance. This interactive, user-friendly interface allows users to view the entire model, which can also be rotated, zoomed in and viewed on plan and by individual section, with details of all mineralised zones.

An additional powerful tool for the benefit of shareholders and investors is the ability to simply view individual mineral results (Copper, Gold and Silver) or have them aggregated and viewed as Copper Equivalent results.

The interactive 3D representation of Cascada is now available for viewing through a hyperlink on Azure's website: [www.azureminerals.com.au](http://www.azureminerals.com.au) or directly at: <http://www.corebox.net/properties/cascada-project>.
